

Procédure pour Mac OS 14 Sonoma

1. [Récupérer les fichiers d'installation sur UN-Cloud](#)

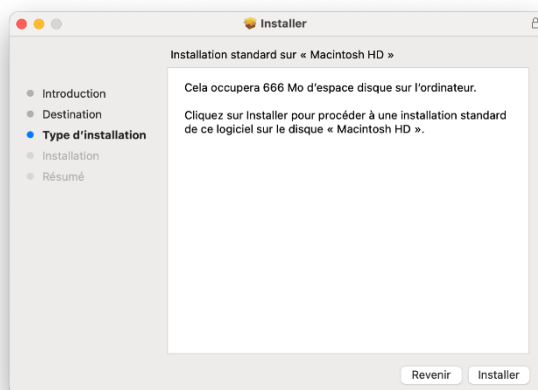

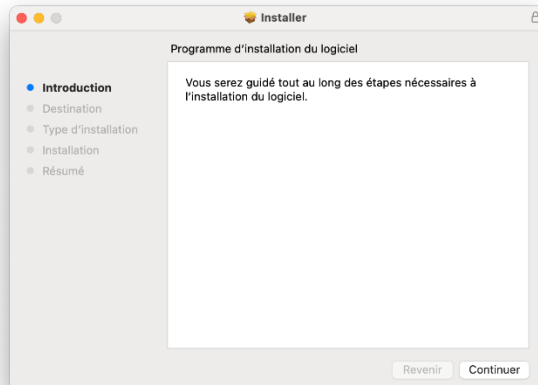

hp-printer-essentials-UniPS-6_1_0_1.pkg

NU-PRINT_V2.pkg

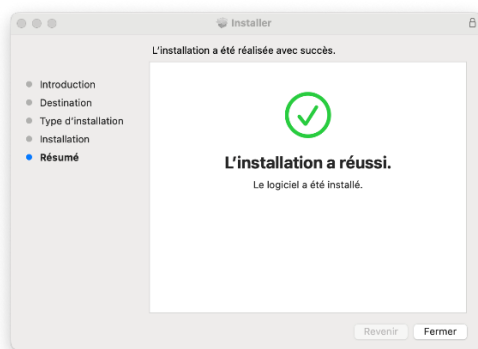

Il se peut que des élévations de privilèges soient requises au niveau OS pendant l'installation des packages en fonction de la version de MacOS utilisée.

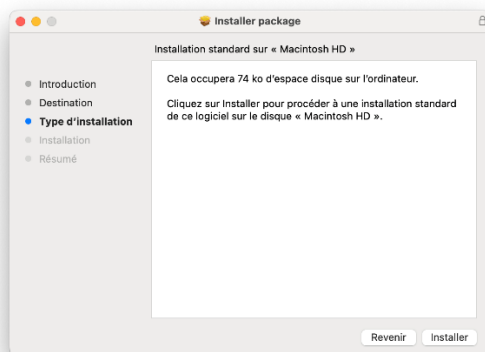

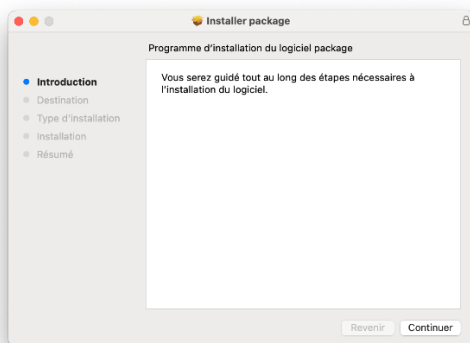

2. Exécuter le package : hp-printer-essentials-UniPS-6_1_0_1.pkg

Le cas échant : demande d'élévation de privilège

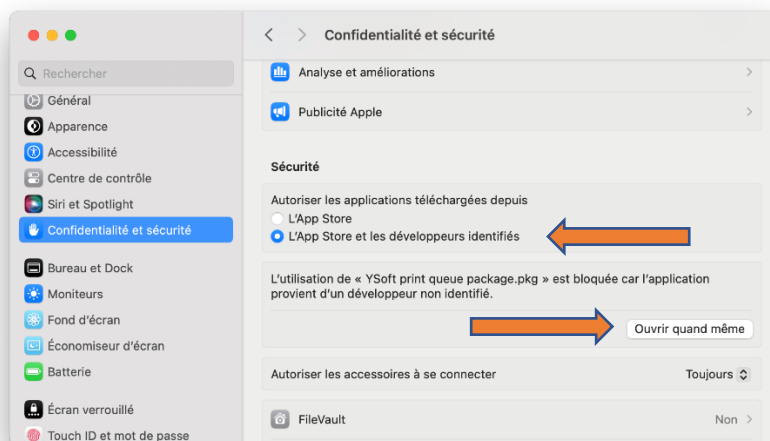

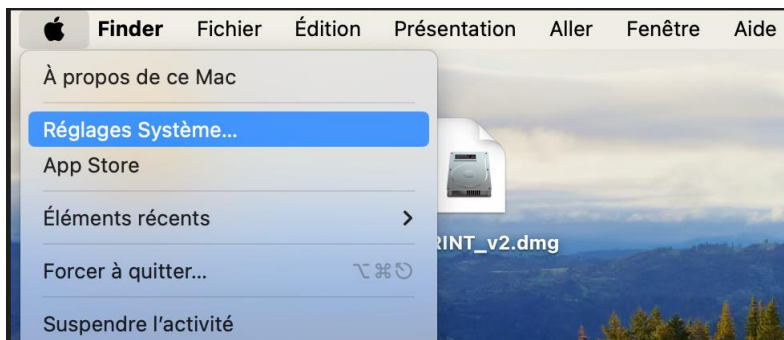

3. NU-PRINT_V2.pkg

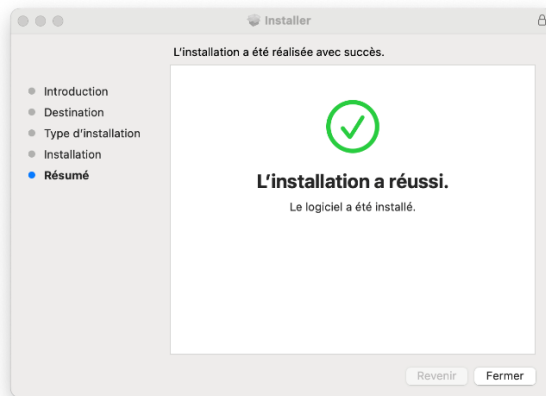

Le cas échant : demande d'élévation de privilège

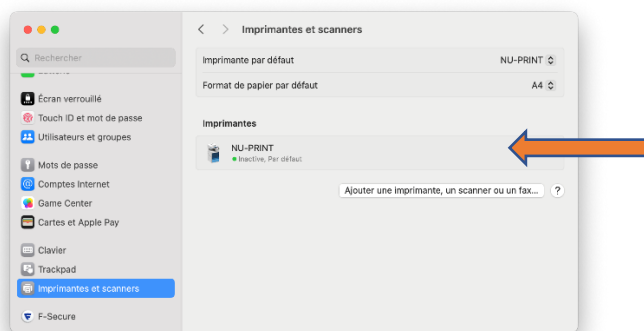

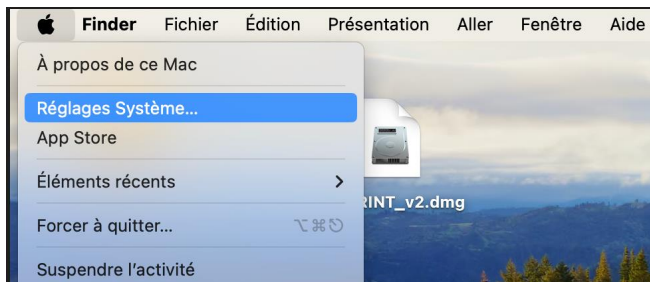

Le cas échant : blocage d'installation de NU-PRINT (YSoft print queue package.pkg)

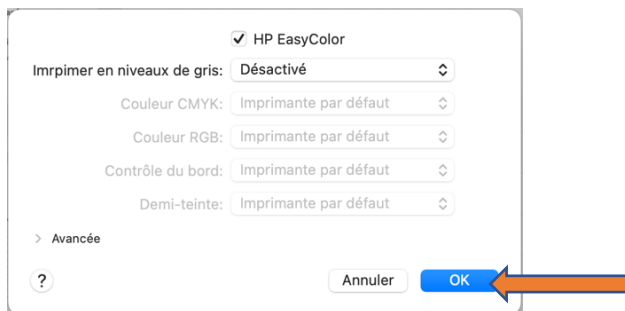

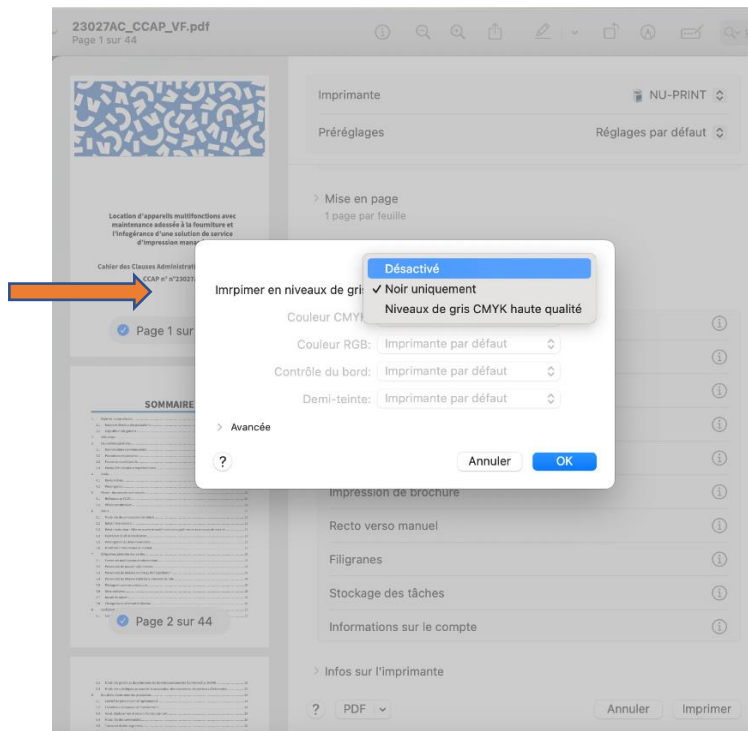

4. Vérification du déploiement effectif de l'imprimante NU-PRINT

5. Imprimer en couleur

=> Fichier => Imprimer => Options d'imprimante => Couleur

Imprimer en niveau de gris : Noir uniquement => Désactivé => OK

6. Modifier Cups (toutes les impressions en couleur), déconseillé
<http://localhost:631>

The image consists of three vertically stacked screenshots of the CUPS web interface, illustrating the process of modifying printer settings for 'SafeQ0'.

Top Screenshot: 'Imprimantes' page
The page title is 'Imprimantes'. It shows a search bar and a table with one printer entry. An orange arrow points to the 'SafeQ0' entry in the 'Queue Name' column.

Queue Name	Description	Location	Make and Model	Status
SafeQ0	NU-PRINT		HP Color MFP E786-25-30-35	Idle

Middle Screenshot: 'SafeQ0' printer details
The page title is 'SafeQ0 (Idle, Accepting Jobs, Not Shared)'. A dropdown menu is open over the 'Description' field, with an orange arrow pointing to the 'Set Default Options' option.

Bottom Screenshot: 'Définir les options de l'imprimante' page
The page title is 'Définir les options de l'imprimante' and the sub-header is 'Set Default Options for SafeQ0'. A menu of printer options is displayed, with 'Color' circled in orange and an arrow pointing to it.
